The release of this updated service pack includes a whole new series of security features and patches, which address about 1,300 flaws, according to the most recent version of Microsoft's Patch Watch Program. Microsoft announces the availability of the service pack for the new operating system. "We are continually working with customers and partners to deliver new, innovative features and benefits that are relevant to their needs," a Microsoft spokesperson told eWEEK. The Windows XP Service Pack 2 will be available in more than 150 languages. Users can also download support tools, hotfixes and other useful pieces of software from the Microsoft website. The company also stresses that the service pack is compatible with the latest hardware and software from all vendors. The company also released a new Help and Support Center, which you can use in order to look for support options for your own or for your organization's needs. You can also have your queries answered, if you have any, by using the new e-mail support system. "Our latest support service offerings are all designed to make life easier for you and your organization," said a Microsoft spokesperson. It's estimated that millions of PC users will take advantage of the new service pack and its new security features. The operating system, released in 2001, has been regarded by many as the platform of choice for consumers and business users. Microsoft recently released the Service Pack 2 for the operating system. A standard issue to consider is that if you are operating Windows XP Service Pack 2 on computers that you have previously installed the Microsoft Office XP Pro SP3 updates then all of the Office XP Pro SP3 updates will remain active and the updates will not be lost. Another similar option is that if you are using Windows XP SP3 Service Pack 2 on computers that you have already installed the Office XP Pro SP3 updates then the Office XP Pro SP3 updates will be available to you through your software provider's package. The latest version of the operating system, Windows XP Service Pack 2, contains a number of significant changes. These include the integration of Internet Explorer 7, new security features and enhancements, support for new technologies and the latest hardware and software drivers.
