
Gluco Logger For Windows 8 Crack (2022)

Gluko Logger For Windows 8 Crack+ Free (Updated 2022)

Gluko Logger (GL) for Windows 8 is a handy application designed to help you keep an accurate log of all the daily blood glucose values. The program lets you record and organize each reading chronologically or by the level. Enter and manage your glucose values It's wrapped in a modern and easy-to-use interface, structuring the functions in distinct sections, like New, Readings, Journal and Taken at list. The app is installed through the Microsoft Store and it's compatible with Windows 8, 8.. From the settings, you can set the local date, time format and the glucose unit. Sort the records based on the level or date To start, simply measure your glucose using a glucometer and type in the date and time, value, the part of the day (breakfast, lunch, dinner) and additional notes. The entries can be viewed in the Readings menu and sorted based on the date or value. Save your logs to a CSV document Plus, you have the option to export the history to a CSV file anywhere on the computer. The journal adopts a simple look similar to a notebook, where you can write all the issues or feelings you come across during the day. It would've been nice if the app offered a few options to upload pictures with the encountered problems or provide some emoticons to express the current mood. Customize the predefined classifications The last panel lets you change the predefined categories, such as before/after breakfast, lunch, medication or bed, with custom names, images and a short description. The group can be disabled if it's not necessary anymore. Useful glucose tracker Taking everything into account, Gluko Logger is a reliable software solution that comes in handy to everyone who needs to log all their glucose levels, record issues they came across during the day or the current mood, and edit the categories to best fit their needs. 01-04-2013, 12:27 PM Hendrik Menz Gluko Logger is a handy application designed to help you keep an accurate log of all the daily blood glucose values.
