Truecaller is an app that can help you find friends and family members. Once installed, the app will collect your phone number, Facebook ID, email addresses, linked accounts, and public information from available sources. This includes your age, gender, and possible criminal records. The information is also compared with that of the user's friends on the network. If that information matches, a nickname will be generated and added to the app. The Truecaller app comes equipped with a mobile and web interface, but you can also add your contacts manually from your desktop, via WhatsApp, Facebook, Gmail, Outlook, Skype, and even via SMS. Truecaller Description: Adds social media apps to the pages you want to quickly start updating.
