into a center of the bore of the tool and the tool is then rotated. However, this tool results in a lowering of the core from the bore due to the spreading and the separation of the individual columns. This also limits the selection of possible core shapes and the number of columns which may be positioned within the bottom of the bore. A further limitation to current cores and core drills is that they are unable to precisely control the placement of the cores within the bottom of the bore. Current core drills and cores simply drop the cores when the drills and cores reach the depth where the core is intended to break. Therefore, the introduction of cores into the bottom of the bore may not be precisely controlled. U.S. Pat. Researchers at Johannes Kepler University said they received more than 36,000 emails from people in Germany about a study due to appear in the prestigious journal New York Times. The two-day survey found that Germans are unlikely to allow women and children from Muslim countries access to social welfare. Germany's Chancellor Angela Merkel has faced criticism from many quarters over her decision to take in large numbers of refugees. Only 28 per cent of respondents said they would trust a Muslim refugee and support a program that let Muslim refugees access the German welfare system. FILED NOT FOR PUBLICATION

By the way, I do hope you have a few days to play OTP, because it is insanely hard. I am not joking. I spent over 30 hours on it for a single attempt, and I could barely do any decent on any attempts. That's really something. Anyway, it's the newest game by Keralis. I do hope the game gets another update soon, I really want to try it out. It's a must-have game, and if you have anything else to recommend, please do. I will give it a fair chance.
