
Small Mail Sender Crack Incl Product Key Download For PC [Latest 2022]

Small Mail Sender Crack+ [Win/Mac]

Small Mail Sender is a powerful, reliable and easy to use application designed to send an unlimited amount of email messages to your contacts. With this extremely useful tool you can send tens of thousands

of emails to your business or personal contacts with only a few mouse clicks. The program offers three delivery options:

- A popup message window with a list of contacts and a corresponding URL to a message template for each contact (like the "Instant

Messaging" feature of MSN Messenger or Yahoo! Messenger) • "Auto-Completing" for all contacts using the user's address book • "Outlook Viewer" for reading the messages of your contacts as they arrive • A fullscreen message window with the

email content as well as the recipient's addressbook and a way to send a reply

Small Mail Sender License:
Small Mail Sender is absolutely free to use for everyone. However, if you want to continue using it after the trial period, you will need to purchase a

Small Mail Sender Pro
license for \$149.99 / year.
If you choose to purchase
Small Mail Sender Pro you
will receive many exciting
new features: • The
recipient's address book is
a Windows XP/Vista/7 file
and not a "Shared
References" folder like in

Small Mail Sender. • Small Mail Sender Pro has a new contact group management, where you can set up several contact groups, and move contacts from one group to another. You can also automatically hide a contact group from the Small Mail Sender Pro

main window. • Small Mail Sender Pro allows you to send email attachments, that are as big as you like, and the maximum allowed amount of attachments is unlimited. • Small Mail Sender Pro has a new user interface, designed to match the ease of use of

the more advanced version. Small Mail Sender Pro will be released as an update once a new version of Small Mail Sender is available. Small Mail Sender License URL:
Privacy notice: Small Mail Sender works on your computer or on a web

server. It never sends any information to any server except the ones you have chosen to use for Small Mail Sender to communicate with. Because your email address is used to send all the email messages on the web, you should never be

afraid of your email
address being used by
someone else
