Two-in-one segue from Hällestad to Falun What with the Domkyrka ready to be opened as a museum, we had quite a lot of spare time, which was highly useful, since we had a priority to get as many of the apartments as possible ready for the "visitors". This made it urgent to start the demolition of buildings that had to be cleared out of the way. We don't get very much time to visit the area every day, so things had to be done in the right order - and some of the more sensitive buildings were found to have been built on or in the old permitek (green/protected areas) which makes things a bit more complicated - but in the end it was all cleaned up properly. My plan was to focus on one area per day, and then we could move to the next on the following day. The first area was quite easy, since the old church from 1939 had no stability problems and just needed a few snips from the removal vehicles to make it safe for the visitors. The old church was in pretty good condition, with many nice murals and stained glass windows that are pretty unique for that area of the world. We also got two of the crucifixes removed, since their significant weight had caused damage in the foundations. The second area was less obviously plain, but required more care to be taken. I had no idea what I was looking for, so it took us some time to figure out what was going on there. But in the end the structure was ready for the visitors. There were several nave galleries on the

GAMEPLAY ELDEN RING game:

- Actions Action Methods • In contrast to other games, the protagonist can perform more than one action at the same time. While moving and attacking, hit the right button to raise magic power, or perform special actions.
- Special Actions Special Actions • Each Special Action consumes magic power, but it can be used while performing another action. There are dozens of different types of Special Actions such as battling various enemies, and destroying obstacles. Special Actions make the game more challenging as you have to perform complex combination actions to summon them.
- Action Methods Action Methods • Action Methods are methods to specify the target of an action, including four Action Methods of Movement, and three Attack/Magic Action Methods. You can learn all four techniques by performing Special Actions.
- Movement Methods Movement Methods • Movement Methods are methods to specify the motion of the character while performing an action. Movement Methods are in addition to the Movement Methods of the classes that you equip.
- Equipment Classes Equipment Classes • Equipment Classes are special actions that you can use when moving. Some of them are Common Equipment, and others are Rare Equipment. Acquire them to maximize your abilities.

Characters Characters • Characters, similar to the ones you
