Each week, the palettes team travels to different places and checks the palettes. Their trip usually takes 6-8 weeks, and they end with a visit to their lovely maker. We recently spent two weeks in the southern half of Germany. Click on the thumbnail images below to see our portraits of the week. Palette cad 7 2crack .

Michigan has the best backcourt in basketball -- maybe the best in all of college basketball -- but getting out of the Midwest is a serious task in the Big Ten. The Wolverines play the top two teams in their conference, Maryland and Ohio State, and Michigan will likely come in third at worst. If you lose to those two teams, it's probably the end of your season. 1. Villanova (yes, we hate them as much as you do). The Wildcats have been great this season and have huge conference wins over both Notre Dame and Seton Hall. Their five losses include home losses to Georgetown, Marquette and Xavier. They have a great head coach in Jay Wright who is one of the best in the nation. They have an intriguing brand of basketball with great guards and steady defense. Villanova is the favorite right now, but this could change in a day. 2. Syracuse. Another Big East school is going to win the conference tournament this year. Of all the teams that should win it, Syracuse is the one that you have to pick as the team to beat in the last few minutes. The Orange have been great all d0c515b9f4

September 7, 2011 Grapes of Wrath --
Part 1 -- Bill and Cynthia's Journey One of
the most striking elements of my
presentation is my use of contemporary
photographs to document the journey Bill
and Cynthia made from the Dust Bowl
through the Great Depression and up into
the new information age. The story has
never been told in such detail and with
such photographs. The goal of this blog is
to share more of the story with viewers.
You will see Bill and Cynthia following the
San Francisco Tribune. Through Bob
Scanlan I am acquiring the photographs. I
will also use the blog to share
photographs from the other
photographers as well as my own. One of
the most fascinating elements of the
journey is Bill and Cynthia's interaction
with each other. Bill is very quiet and I
think most viewers of this video will be
surprised by his ability to communicate

with Cynthia. They were inseparable from the beginning of their journey and their lack of a very clear plan is a testament to their ability to read the situation and react to it. At times they were competing with each other and at times they worked well together. Their relationships are also interesting from a psychological perspective. As every relationship you have had you can see yourself reflected in Bill and Cynthia's interaction as well.

Today is the first of a 3-part video presentation of the Grapes of Wrath. Part 1 contains the journey of Bill and Cynthia from August through October of 1935 when they arrived in California. You can also find a link to Part 2, which contains the first part of their journey from California through Idaho and Oregon to the San Francisco Bay Area. I will post Part 3 next week.
