Firstly, a note of thanks to Satoshi Tajiri, creator of the Pokemon series, who, in appreciation for the development of this game, gave developers behind it the chance to create it. The reason he did this is because he was against the genre of action RPGs in general, to which this game belongs. Had he not given the developers this chance, the sport of new generations would not have been born."—SATOSHI TAIJIRI, creator of the Pokemon series, voice of the game: "When I heard that a game called Pokémon Emerald was being created, I had no idea that this game would become a hit in Japan and that it would also be the first action RPG for the new generation. It is because of this game that countless people have played the Pokémon series, and in the process, many have become familiar with the genre of action RPGs. This game is proof of what I said just now: it is because of this game that the action RPG genre was born, and it has allowed many people to become familiar with what games are. I am very grateful to the people who created Pokémon Emerald, and I want to express my thanks to the people who listened to what I had to say and created Pokémon Omega Ruby and Pokémon Alpha Sapphire. Their games are significant to me, and I sincerely hope you enjoy them." –SATOSHI TAIJIRI, creator of the Pokémon series "The genre of action RPGs is one of the most important genres of games. I'm sure that many people will enjoy games that includes such elements as enemies. However, I'm glad that an action RPG was born from this game. I want to thank everyone, especially the game's developers, for having the courage to create an action RPG like this. I want to also thank everyone who took the time to play this game, from the first day of its release until now. Thank you very much." –HIDEAKI NAITO, creator of the Shin Megami Tensei series "Pokémon Emerald was released on the eleventh of August of 2001, after the success of the mainline Pokémon games. When I first heard this game was being developed, I didn't think that it was an action RPG at all. However, after playing through it myself, I realized that action RPG elements had definitely been added. I'm sure many people bff6bb2d33

What's new in Elden Ring:

f you like Fantasy, RPG, and Light Action games. ⬜⬜ Since the release of the physical version of the game, many players have been attempting to sell and trade the game on trading cards known as "Hierarchs." However, in this version of the game, you are guaranteed to be limited to a fixed collection of cards. To players, of course, this is not too much of a problem; the aim is to collect as many cards as possible. However, some players do not wish to be limited to a certain number of cards. However, no one intends on selling the cards that have been obtained by swapping.

1870 is a game that regulates the tempo of 4 players, a strategy game that rewards a successful strategy. You compete to meet your requirements, win trophies, and battle through all the seasons. In addition, it also emphasizes an excellent turn-by-turn battle system, where you develop it. ⬜⬜ ⬜⬜⬜⬜⬜⬜⬜⬜⬜⬜⬜⬜⬜⬜
