Wazzap Migrator Review: WhatsApp Transfer Across Android.. wazzap migrator review wazzap migrator alternative wazzap migrator lite wazzap wazzap migrator.Q: Dialogflow: How to save user input I want to save (for example in a database) the user's input after a dialogflow conversation has been made. I tried to put something in the catch(...) block of the code in the GcsService.java file as suggested in this tutorial: but this only leads to the return of the promise (in the catch(...) block), but I don't know how to retrieve the user's input. Is there a way to do this? Thanks! A: You can retrieve the user's input in a Dialogflow Agent response in any of the supported languages (see the documentation). If you're using java, just use the following code (for python you would do something similar): @Override public void intentFulfilled(Map>
