what better game than mario golf for zelda fans? it was released in 1995 for the super famicom and originally designed by a japanese firm called atelier. the game is a golf-like sport where you control a character with an 8-bit cart and try to knock down blocks and pipes as you bounce around the courses. just like mario galaxy for wii and zelda wind waker for gamecube, mario tennis was released in 2008 for the nintendo gamecube and playstation 2. it's a tennis game where you control mario and luigi. you can play singles or doubles, and the gameplay is simple enough to play for hours and hours. you can choose to play in single player mode or with a friend in a 2-player mode. the legend of zelda: breath of the wild is coming to the wii u this march. its a new game by the same development team as the highly-acclaimed the legend of zelda: a link to the past which was released in 1991. the game is a real-time zelda game where you can go anywhere and do anything. you explore new locations and defeat new enemies. it also features a completely new cast of characters. it's the first time that the series has had such an open-world environment. i often find that zsnnes brings out the best in retro games. just take zelda 3 for example. zsnnes is able to bring out the best in it, and this translation is no exception. this game is a must have for anyone who is a zelda fan. the gameplay is great and the music is awesome. and thanks to the translation, you can play this game with ease in english. you can play this game here. fun little adventure/platformer based on the legend of zelda series. after ganon has been defeated, link is off to discover the location of the triforce. zsnnes is great for this game, it adds quite a bit of life to the game and makes it much more enjoyable. it can also be used to play old snes games that don't have a japanese release yet. for nes games, zsnnes will have a similar effect, but not quite as much. zsnnes is a great way to play games like this. once you start playing, you won't want to stop. you can download it here.

once diana and the sword reach the castle, a magical fire begins to erupt all around them, engulfing the castle. while it burns, zelda hears mother brain's instructions: "zelda, come with me now!". after defeating a giant, the party will be given a choice: they can either leave zelda and go back to the surface, or go down and help zelda. in any case, they will need to defeat saria once again, this time in the place where they first met her in their first quest. after this, they will be teleported to the ballroom of the lake hylia castle. they will be summoned by zelda, who tells them that there are a few people she needs to rescue. after doing so, the party will start the boss fight against mother brain - in which they will first have to defeat the four urns that mother brain uses as weapons. after destroying all four urns, mother brain will retreat to a room in the castle. there she will teleport a bunch of ghosts into the castle, who are supposedly her servants that she uses to do her dirty work. once all of the ghosts are defeated, a door will open, which will allow access to the next area of the game. legend of zelda: breath of the wild is pretty great. it's a really great open world that can be played in a number of different ways. i'd recommend the faq if you want to know how to beat the game, but that's a lot of information to be gathering from a single resource. this walkthrough will just give you a bit of a hand in finding things like armor and weapons. all of the essentials can be found in the wild, so your best bet is to stick to the beaten path. that said, don't be afraid to explore off the beaten path, either. (you'll find the best armor and weapons there.) 5ec8ef588b
